Summary

- 148 Parties, representing 80.4% of the world's population
- 168 Signatories, representing 91.4% of the world's population
- 177 Participants (Signatories and/or Parties, including 8 parties by accession, and one by succession), representing 91.6% of the world's population
- 195 eligible Parties

(based on mid-year 2004 population data)

(only European Community countries that have ratified are counted in population totals, not the European Community as a whole)

A **Party** is bound under international law by the provisions of the *FCTC*.

A **Signatory** is a country that signed prior to the June 29, 2004 signature deadline. Signature indicates agreement with the *FCTC* and an intention to become a Party at a later date and thus be bound by the *FCTC*'s provisions.

A **Participant** includes all countries that are either Parties or Signatories, including countries that become Parties through accession or succession.

Accession is the process by which a country that has not previously signed becomes a Party.

Succession refers to a new country that desires to continue to be a Party following the partition of a previously existing country.

Ratification (becoming a **Party** subsequent to signature), **accession** and **succession** have the same legal effect.
